PROFESSIONAL HISTORY

Software Engineer

Giant Squid

10/2018 - Present

Australia

Achievements/Tasks

- Worked on the development of dynamic web applications that utilized HTML, JavaScript, SASS and PHP
- Optimised API connections to integrate the MySQL back-end with dynamic data to dynamically populate the front-end
- Actively worked in an agile software development environment which utilized the Kaban process

Web Developer

Stitch.net

08/2018 - 10/2018

Australia

Stitch is the world's only companionship community created by members, for members.

Achievements/Tasks

- Worked on the development of the stitch.net website making improvements to the front-end application handled by the AngularJS framework
- Added dynamic integration to the middleware JavaScript library to work seamlessly with our Python back-end
- Increased the app performance by refactoring and updating outdated components and dependencies to be consistent throughout the entire platform
